| ERROR | Fan error, please contact the after service. |

Wireless Connection

Short press the remote control button to switch between 2.4GHz (CTRL1 remote) and APP (COLBOR Studio APP) control modes, then long-press the button to start pairing.

1. APP Connection & Operation

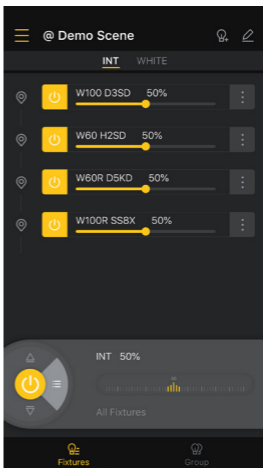

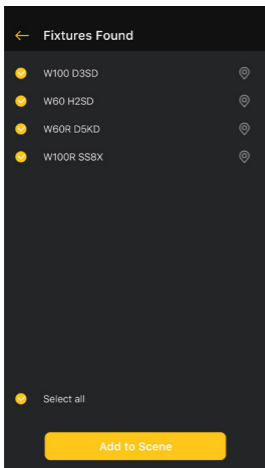

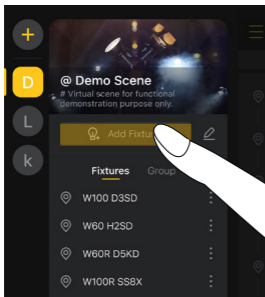

Scan or search in the app store to download the COLBOR STUDIO for further functions.

(1) APP Connection

① Short press the Wireless Control Setting Button to switch to APP Connection Mode (Shows the Icon ) and long press to start pairing, once the icon flashes, the light is in connection mode.

② Open the COLBOR STUDIO APP and click "Add Fixtures", and find the W light to confirm adding it.

(2) NFC Connection

Tag your phone's NFC sensing area close to the light's NFC logo. A prompt will automatically appear on your phone to open the APP. Click the prompt to open the APP.

* If the app has not been installed, a prompt to install will appear. Click the prompt to enter the app download page on the official site or the APP store.

* Devices before IOS13 (iPhone XS/iPhone XR) are not available for this function.

* If the light has never connected to a device via NFC, please enable the Bluetooth connection option and activate the light's NFC function first:

- ① Connect the light via the APP connection method (refer to the APP connection operation).
- ② Click on the "Edit Icon" of the light, then click "Activate NFC." Tag your phone's NFC area close to the light's NFC logo to activate NFC. When reconnecting the light, tag your phone's NFC sensing area close to the light's NFC logo area to complete the pairing.

* A light is allowed to be controlled by multiple phones simultaneously. For the real-time parameters, please refer to the phone which last controlled the light and the light.

(3) APP User Manual

Click to open the page to check for more information.

WARRANTY

Warranty Period

Thank you for purchasing COLBOR products.

1. Customers are entitled to free replacement or repair service in case of quality defect(s) found in the product under normal use within 30 days upon receipt of the product.

2. Original COLBOR products are entitled to 12-month limited warranty service. The warranty period begins on the date of purchase of brand new, unused products by the first end-user.

Within the warranty period, if product defect or failure is attributable to material deflection or technological problem, the defective product or defective part will be repaired or replaced without charge (service and materials fee).

Warranty Exclusions and Limitations

1. Faults resulted from inappropriate use of a product without following its operation specification

2. Artificial damage, e.g. crash, squeeze, scratch, soaking, exposing to rain or damp

3. Modifications to a product by its user or a third party without prior written consent of COLBOR, e.g. replacement of element or circuit, label alteration

4. The code on product is inconsistent with that of warranty certificate, or the code on the product or warranty certificate is altered or torn off

5. All consumable accessory attached to a product, like cable, cover

6. Faults as a result of force majeure, such as fire, flood, lightning, etc.

Warranty Claim Procedure

1. If failure or any problem occurs to your product after purchase, please contact a local agent for assistance, or you can always contact COLBOR's customer service through email.

2. Please retain your sales receipt and warranty certificate as proof of purchase. If any of these documents is missing, only sales return or chargeable service will be provided.

3. If the COLBOR product is out of the warranty coverage, the service and the parts cost will be charged.
